

I am writing in concern that there is the slightest possibility that 90.7, our local K-LOVE station, will not be on the air in the future. Very few stations provide non-stop encouragement and positive musical entertainment. I sincerely hope that if LPFM broadcasters take effect, that you will find a way to ensure that K-LOVE remains on the air, AS IS. The people of this great city, and around the world support this radio station, and that should hold great weight in making your decisions. Thank you.. Brian
